COMPANY PROFILE 2026

Recruitment services & platform overview for international schools hiring outstanding English-speaking teachers worldwide.

www.oxfordteachconnect.com

INTRODUCTION

OxfordTeachers was founded to solve a simple problem: international schools need great teachers, and great teachers need a trustworthy way to find the right school. We built OxfordTeachConnect, our recruitment platform, to bring both sides together in one place.

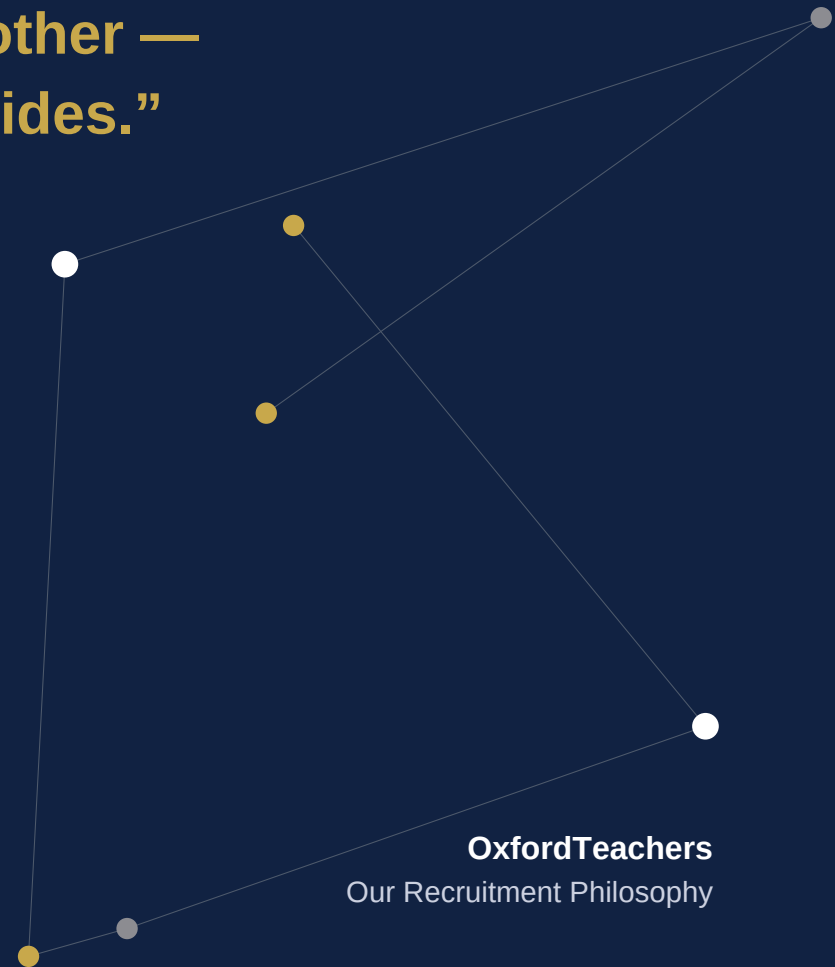

From a single job posting to a fully managed search, schools can choose exactly how much support they need. Every candidate who reaches your shortlist has already been screened, so your team spends its time interviewing, not filtering.

This profile walks through what OxfordTeachConnect offers, how the platform works day to day, and the recruitment plans available — from a free job posting to a fully managed, success-fee search.

Verified schools rank higher on the jobs board and receive more applications from qualified candidates.

“

Great schools are built by great teachers. Our job is to make sure the right ones find each other — quickly, and with confidence on both sides.”
